The stock consists mainly of bricks which were manufactured departmentally. It was revalued within the market rates. Bricks worth Rs. 5,000 have been reported to be in excess of the requirements of the next 12 months but the Divisional Officer considers it necessary to keep them in stock. The bricks were verified by a Stores Verifier working under the Accounts Officer and deficits of about 60,000 bricks 1st Class and surplus of about 34,000 bricks 2nd and 3rd classes were noticed.

*Losses.*—A loss of about Rs. 11,600 occurred in connection with the failure of the tube well boring in the British Legation at a place outside India. The tube well was the first to be attempted at that place and no geological records were available as to the nature of the strata likely to be met with. It was originally anticipated that boring to the depth of 100 feet should suffice and the work was commenced with an 8" tube; but on reaching the depth of 200 feet it was found that water was insufficient and it was decided to sink the tube deeper. The boring was actually carried to a depth of about 300 feet, but while extracting the tube it broke off 140 feet below ground leaving 160 feet behind. The work was then inspected by a tube well expert in India who was of the opinion (i) that it was a mistake to attempt to sink and extract an 8" tube from a depth of 300 feet instead of sinking a 10" tube half way, (ii) that the tube used was not suitable for the work as it was only fit for shallow boring in soft sub-soil, and (iii) that it was difficult to recover 160 feet of the tube.

The Engineer in charge of the work has explained that it was fully recognised that there was a certain risk in sinking the 8" tube to 300 feet and the position was known to the Minister of the Legation who agreed that the risk should be taken.

The Government of India, in consultation with their Consulting Engineer, decided that, having regard to all the circumstances of the case, the Minister was fully justified in taking the risk and that no blame attached to any one.

## IMPORTANT COMMENTS.

*Variations from terms of contracts.*

Tenders were called for certain works subject to the proviso that the bricks would be supplied by Government at certain rates, and in April, 1927, agreements were entered into with two contractors on this basis. The Divisional Engineer later reduced the rate in the agreement to those which had been current previously, apparently on the ground that the contractors had misunderstood the basis of the tender. He informed the Superintending Engineer of his action in June, 1927, and running payments were made on the basis of the lower rates for bricks.

The Accounts Officer referred the matter to the Superintending Engineer who ordered that recovery of the cost of bricks should be made from the contractors at the higher rates entered originally in the agreement. In March 1928 the Divisional Engineer supported the request of the contractors that the lower rate should be charged for bricks as there was a genuine misapprehension on the part of the contractors. The Superintending Engineer agreed to this in May 1928 and ordered a refund to the contractors of the amount involved, which came to nearly Rs. 2,000.

The Accounts Officer again represented the matter to the Superintending Engineer who in August 1928 cancelled his order of May. In May 1930, the Superintending Engineer took the further step of requesting his Divisional Engineers to abstain from forwarding claims of contractors which were clearly inadmissible under the terms of their agreements.

*Loss due to Omission in realisation of Government dues.*

2. During the inspection of a Public Works Division it was noticed that maintenance charges at 4 per cent. per annum on the capital cost of electrical installation provided in three churches for fittings not reserved by Government, were not recovered from the Church authorities, who were liable to pay these charges in advance under clause III of Appendix C of the Ecclesiastical Rules since 1923-24. The sum recoverable from the three church authorities on account of the charges from 1923-24 to 1926-27 amounted to Rs. 3,214. Two of the churches pleaded poverty and were unable to pay the arrears and consequently the Local Government accorded their sanction to the write off of the arrear sum amounting to Rs. 1,765, the balance due from the remaining church being recovered by easy instalments. The Local Government were asked whether any disciplinary action was taken against the person or persons responsible for the loss but they replied in the negative.\*

*Irregularities in the accounts of Departmental works expenditure and absence of rules to guide officers.*

3. (i) The execution of petty and minor works and of repairs to departmental buildings passed into the hands of departmental officers of the Central Government in the United Provinces with the general scheme of transfer of control of buildings and execution of petty and minor works and repairs from the Public Works Department, to the departments concerned introduced in the United Provinces in the year 1925-26. The non-technical departmental officers who are unfamiliar with the system have not also been provided with the requisite rules to guide them as the rules in the Public Works Account and the Public Works Department Code are too elaborate for them and the rules promulgated by the United Provinces Government for the guidance of their own officers are not made applicable to the Central departmental works. The following important irregularities noticed in the test audit of the accounts of one of the central departments merit mention and indicate the need for supplying the officers with a set of rules early to guard against possible losses :—

- (a) Cash books were not attested by the Superintendent (a responsible officer).
- (b) Measurement books were not machine numbered and the rates were filled in by subordinate officers instead of by the responsible disbursing officers.
- (c) Tenders were not accompanied by earnest money deposits which are to be obtained to secure against any loss due to failures on the part of contractors.
- (d) Deviations from the terms of contract made by an officer other than the officer who entered into the contract originally.
- (e) An advance was made to the extent of the full value of materials brought to site instead of at 75 per cent. of the value of material allowed in the Public Works Department to secure against any loss. No agreement was drawn up with the contractor to secure a lien in the material.
- (f) Rates allowed were markedly higher than those given in the schedule of rates in the district.
- (g) An advance payment was made without measuring the completed work and without the necessary safeguards.
- (h) Alterations (involving extra payment) made in the specification of materials by a subordinate officer without the knowledge of his superior.
- (i) Liberal concessions were allowed to the contractors which were not justifiable.
- (j) The penalty for delay in execution of works was not enforced.
- (k) Calculations of rent was not made on any recognized basis and rent was not recovered from bills. Delay in recovery of rent was also noticed.

With reference to the above and various other points referred to in the inspection report which are still under the consideration of the officers concerned, he represents that the rules in the Public Works Account and Public Works Department Code were not applicable to him.

The accounts of a certain Ecclesiastical institution also indicated that private and Government Accounts were mixed up. Difficulty is experienced in maintaining accounts in the absence of adequate clerical staff.

In view of the various irregularities in provincial accounts noticed in audit and presented in the Reports on the Appropriation Accounts of the Government of the United Provinces the Public Accounts Committee have recommended a comprehensive enquiry into the working of the system in its various aspects. The question of the constitution of the Committee is under the consideration of Government.\*

(ii) A similar difficulty owing to a lack of a set of rules is felt in the circle of audit of the Accountant General, Central Revenues who has, in the case of works costing over Rs. 2,500 (those costing less than that limit having, under departmental rules, been treated as petty works to which the procedure applicable to contingent expenditure is wholly applicable), applied the procedure applicable to contingent charges supplemented by certificates obtained from the administrative authorities concerned to ensure :—

- (1) that the claims on works done are admitted on verification of the quantity and quality of the works executed, and
- (2) that payments are made to contractors on the basis of the rates agreed upon and in accordance with the terms approved by the competent authority.

As, however, audit conducted on the basis of such certificates cannot be looked upon as satisfactory, the desirability of issuing necessary rules on the subject at an early date is brought to notice.

The principal excesses were (i) in the Punjab (Rs. 1,18,535) and (ii) in Bombay (Rs. 47,673) and were due mainly to change in the incidence of pension paid at Political Treasuries on or after April 1921 from Provincial to Central. The charges for the nine years ending 1929-30 in the Bombay Circle amounted to Rs. 10,30,000 approximately. To meet this a supplementary grant of Rs. 9,75,000 was obtained from the Legislative Assembly and the balance was met by reappropriation within the Grant.

The final excess, which remained uncovered occurred in the Punjab (Rs. 28,535) and is stated to be due to 'normal growth.'

Transfer of payment of a pension to India from the commencement of October 1929 accounted for the bulk of the saving, balance representing provision retained for possible increase on account of new pensions in the latter half of the year, but not utilised. Excess over the modified appropriation due to the fact that expenditure in March, as compared with the December payments, was under estimated.

## IMPORTANT COMMENTS.

*General.*

The saving in the voted expenditure under the Grant during 1929-30 represents about 10·4 per cent. of the final Grant (the same as in the previous year) and was due mainly to a large saving of Rs. 6,43,380 under Sub-head "I—Commuted value of Pensions financed from ordinary Revenue".

2. In the non-voted section of the Grant, however, the saving represents 0·8 per cent. of the final appropriation, against saving of about 2 per cent. in the previous year, and is indicative of improvement.

Excess was due chiefly to adjustment of charges for rent of office accommodation supplied by the Public Works Department. The unadjusted saving of Rs. 7,270 is due to debit for cost of stationery supplied and printing work done for the Central Publication Branch not having been raised during the year.

The saving which accrued entirely under the Secretariat Press, was due to (i) earnings of piece workers not having reached the anticipated figure (Rs. 1,300 roundly) (ii) discharge of 3 wheelers during the latter half of 1928-29 i.e., after submission of the 1929-30 estimates (Rs. 900 roundly).

The excess (almost entirely under the Secretariat Press) was due to (i) Installation of electric energy for driving machines for which no budget provision existed (Rs. 900 roundly) (ii) heavy expenditure under "Outside Printing" due to increased work of the Press (Rs. 6,000) and the balance chiefly to (iii) large expenditure on "Freight on forms" owing to increased supplies received from Calcutta.

Certified that the figures in the Statement agree with the Press Books, subject to the following discrepancies:—

- The correct amount of depreciation was Rs. 82,314. The difference of Rs. 585 should be adjusted in the account for 1930-31.
- The correct book value of plant was Rs. 15,640. The difference of Rs. 1,830 should be adjusted in the account for 1930-31.
- The correct closing balance was Rs. 6,49,678. The difference of Rs. 1,245 should be adjusted in the account for 1930-31.

Miscellaneous Central Departments.

The above figures agree with those shown in the accounts compiled by the Pay and Accounts Officer except for a minus figure of Rs. 4,841 on either side due to the Rs. 1,881 and Rs. 2,969 originally taken under debits and credits respectively and subsequently re-adjusted as minus credits and minus debits. This does not, however, affect the closing balance.

I have examined the above account and according to the best of my information as a result of a test audit of the books and a consideration of explanation given to me the account is correct.

T. N. IYER,  
Examiner, Government Press Accounts,  
29rd Decrber 1930.

Note.

The large variation between the figures during 1929-30 and the previous year's working is due to commission charges on bulk supplies made to Railways in 1927-28 which were reduced in 1928-29 and accounted for in the late year and also to increased purchases made on the basis of estimated requirements not being counterbalanced by a corresponding increase in income. It is as well as to expenditure on stores incurred with a view to meeting demands from certain Railways with effect from 1st April 1930.

JAWAHIR KHAN,

Manager, Government of India Press,  
Simla.

I have examined the above account and according to the best of my information as a result of a test audit of the books and a consideration of explanations given to me the account is correct.

T. S. IYER,

Examiner, Government Press Accounts.

## IMPORTANT COMMENTS.

*General.*

The saving in the voted expenditure represents about 5 per cent. of the final grant during 1929-30, against 1·5 per cent. in the previous year, and is mainly due to increased recovery to the extent of Rs. 3,43,567 from the Post and Telegraph Department for printing work [*vide* sub-head W.-2(1)], partly counterbalanced by short recovery to the extent of Rs. 1,72,852 due to a smaller demand for stationery from the Railway Department [*vide* sub-head W.-2(2)].

*Subsidiary Accounts.*

2. The Financial statements of the Central Publication Branch for the year 1929-30 were received by the Examiner of Government Press Accounts only on the 3rd February, 1931, and could not, therefore, be audited in time for inclusion in the Appropriation Accounts.\*

*Losses of Stock.*

3. The unsatisfactory state of the accounts of the Central Publication Branch, and loss of stock to the extent of Rs. 51,197 was reported in the Appropriation Accounts of the year 1928-29. In order to maintain accounts on a correct basis it was suggested that arrangements should be made to have a complete stock taken as from 1st April, 1928. The stock was taken on 1st April, 1928, and the balance sheet was submitted for audit in March 1930. In submitting the Balance Sheet, the Manager reported the following result :—

|                       | Rs.             |
|-----------------------|-----------------|
| Deficit . . . . .     | 2,57,994        |
| Excess . . . . .      | 1,40,083        |
| Net Deficit . . . . . | <u>1,17,911</u> |

Against this, the Manager proposed to deduct the value of books to be written off (Rs. 1,28,457) on account of incorrect stock balance, and to show a surplus of Rs. 10,546. Complete stock was not taken, and stock of 1,538 items costing Rs. 1,34,164 out of a total of 8,536 items was not taken. The following defects were noticed as a result of a test audit of 20 per cent. of the items of which stock was taken :—

- (1) Stock lists were in pencil and there were numerous corrections and alterations which were not attested by any responsible person.
- (2) In several cases stock of the same publications was shown in several places and under different Departments.
- (3) In some cases, incorrect figures were posted in the Balance Sheets.

(4) In the case of items of which stock was not taken, the balances as shown in the ledger were assumed to be the actual stock balances.

(5) In 41 cases, 13,262 copies costing Rs. 14,983 were added to the stock where there were actual deficiencies to square the balance.

The Balance Sheet was thus not reliable and did not represent the correct state of affairs. Taking into account the errors as far as they were noticed in the limited audit that was possible and assuming the correctness of the figures supplied, the result was :—

|                       | Rs.             |
|-----------------------|-----------------|
| Deficit- . . . . .    | 2,44,471        |
| Excesses . . . . .    | 1,42,952        |
| Net Deficit . . . . . | <u>1,21,519</u> |

The statement that the value of books to be written off on account of incorrect stock balance is Rs. 1,28,457 did not admit of any verification as there were no details in support, and could not, therefore, be accepted.

No stock was taken on 1st April, 1929 as the Manager explained certain difficulties, and the stock taking was postponed till April, 1930. It is understood that stock was taken in April, 1930 but it is not known whether complete stock was taken on this occasion and what the results are likely to be.\*

| This saving of Rs. 28,263 was counterbalanced by excess Rs. 10,938 in Madras due to printing charges (Rs. 11,000) having been adjusted in March 1930 instead of in April 1930 as originally anticipated and in Bombay (Rs. 8,909) due to expenditure on printing, which could not be correctly estimated until a late stage. |                              |                             |                      |                                                                  |                                         |

Mainly to expenditure of Rs. 1,16,351 in the United Provinces, for which no provision was made in the original estimate; the expenditure represents the liability of the Central Government to the Government of the United Provinces due to wrong allocation of leave salaries in the past. Also excess occurred in the estimates of the Pay and Accounts Officer, Secretariat (Rs. 23,900), due chiefly to (i) adjustment of charges in connection with the deputation of the Right Hon'ble V. S. Sastri to East Africa for which provision was made under Subhead D. 12 (Rs. 19,000) and (ii) the expenditure in connection with the visit of the League of Nations Far Eastern Opium Commission not provided for in the original estimates (Rs. 1,465).

## IMPORTANT COMMENTS.

*General.*

The non-voted savings under the Grant during 1929-30 represent about 1.1 per cent. of the final appropriation against savings of about 1.7 per cent. in the previous year.

2. In the voted section, the saving during the year under report is about 10 per cent. of the total grant against about 22 per cent. in the previous year.

Out of the saving of Rs. 2,29,534, a sum of Rs. 1,06,230 was surrendered to Government thus reducing the final saving against the total grant to about 5 per cent. during 1929-30.

Savings in Bombay (Rs. 12,16,600) were due to smaller expenditure than anticipated owing to depression in trade in general, and in the Afghan trade in particular which forms an important factor in these refunds. The net saving of Rs. 12,32,063 includes an excess of Rs. 1,85,788 in the Punjab estimates which remained uncovered and which is explained as due to the refund of Rs. 1,96,372 to the Military Department on account of customs duty on Military Stores imported by Indian States having been adjusted under this head instead of by deduction of receipts under the revenue heads concerned as the year of original credit to revenue was not known to Audit.

Important savings occurred in the estimates of the Pay and Accounts officer, Miscellaneous Central Departments, Calcutta (Rs. 7,06,000) and in Burma (Rs. 3,69,000). In the estimates of the Pay and Accounts officer, Miscellaneous Central Departments, Calcutta, the actual expenditure amounted to Rs. 35,93,415 against original appropriation of Rs. 34,00,000 and modified appropriation of Rs. 43,00,000. The Commissioner of Income-tax, Bengal explained that the variation as compared with the original appropriation was due to heavy refunds having had to be made in view of the High Court's decision in a particular case, which affected all other cases assessed by the special Income Tax officer. The supplementary appropriation of Rs. 9,00,000 which was obtained on the 6th February proved to be excessive and Rs. 5,00,000 were reappropriated to B. 2, the residual saving being due to refunds being set off against fresh reassessment. In Burma, the saving was due to bills for certain authorised refunds not having been presented before the close of the year.

Important savings occurred in the India circle in the estimates of the Ajmer Administration (Rs. 5,775). The actual expenditure amounted to Rs. 4,725 against the original appropriation of Rs. 3,200. To meet the anticipated increase over the original appropriation a reappropriation of Rs. 2,000 was sanctioned by the local Administration on 1st October 1929, and a supplementary appropriation of Rs. 7,300 was applied for in December 1929 and sanctioned on 17th February 1930. The entire amount of the supplementary appropriation was not required. The local Administration explains that it was expected that large expenditure would be incurred during the latter part of the year, when it was too late to surrender the amount to Government.

Saving accrued chiefly in the India circle in the accounts of the Ajmer Treasury due mainly to the supplementary appropriation of Rs. 7,500 obtained on the 17th February 1930 by the local Administration having proved excessive to the extent of Rs. 5,808. This factor as well as the saving which eventually accrued in Baluchistan (Rs. 2,122) due partly to over-estimation and partly to adjustment of Rs. 1,200 under subhead "G-2," contributed chiefly to the final saving in column 6. The remaining saving in Ajmer could not be surrendered by the local Administration as sanction to the additional appropriation was received late.

| Duo mainly to savings in the estimates of the Accounts officer, Central Accounts office, P. W. D., Delhi (Rs. 24,898) owing to unavoidable delay in calculation of the rents and unexpected difficulties in working out the refunds. A surrender of Rs. 30,000 was reported to the Finance Department on the 25th March 1930 but remained unaccepted. Saving to the extent of Rs. 1,451 also accrued in the North-West Frontier Province as certain officers did not claim refunds to which they were entitled. |                         |                        |                       |                                                        |                                    |

## IMPORTANT COMMENTS.

*General.*

The following table shows the percentages of savings and excesses both under Voted and Non-Voted sections of the Grant for the last few years :—

|           | Year.   | Appropriation. | Saving—or Excess+ | Percentage of variation. |
|-----------|---------|----------------|-------------------|--------------------------|
| VOTED     | 1925-26 | 57,26          | +7,96             | 14                       |

|           | 1927-28 | 1,98,13        | —2,45             | 1                        |
|           | 1928-29 | 2,27,53        | —14,03            | 6                        |
|           | 1929-30 | 2,37,47        | —14,45            | 6                        |

The variations under the following sub-heads are mainly responsible for the high percentages of savings or excesses as will appear from the following statistics :—

| Subheads           | 1925-26. | 1926-27. | 1927-28. | 1928-29. | 1929-30 |
|--------------------|----------|----------|----------|----------|---------|
| A.—Customs :       |          |          |          |          |         |
| Non-voted . . .    | —14,32   | —7,00    | —2,57    | —1,85    | —3,27   |
| Voted . . .        | +3,73    | —4,02    | +1,06    | —8,83    | —12,32  |
| B.—Taxes on Income |          |          |          |          |         |
| Non-voted . . .    | —1,23    | —4,41    | +53      | —11,47   | —10,38  |

In a grant like this accurate estimating is admittedly difficult, as the expenditure is of a fluctuating nature, but the large variations under the above sub-heads for the last few years would seem to indicate defective control.

*Relaxation of the time limit for sanctioning additional funds in the case of non-voted refunds.*

2. As a result of the recommendations of the Committee on Public Accounts in paragraph 55 of the Report on the accounts of 1927-28, the Government of India have ruled that there should be no time limit for the acceptance and sanctioning of reappropriations, provided that the orders are actually passed within the financial year.

## IMPORTANT VARIATIONS UNDER INDIVIDUAL ACCOUNTS.

## ACCOUNT I.—DIRECT DEMANDS, ETC.—LAND REVENUE.

*Voted*.—Savings mainly occurred under B. 2. (Rs. 21,553), B. 4 (Rs. 9,500) and B. 5 (Rs. 9,341) due to the postponement of settlement operations in the Bannu District.

## ACCOUNT II.—DIRECT DEMANDS, ETC.—FOREST.

*Voted*.—Savings occurred under B.—Conservancy and Works (Rs. 30,345) and C. 4 (Rs. 11,652). In the former case the savings were partly due to economy to meet inevitable demands under other heads (Rs. 22,378) and partly to incompleteness within the year of the work of collection of Kagan Timber washed away by flood, and in the latter case due to the charges on the working of the Upper Swat D. Odar Forest having been allocated to 29—Political.

## ACCOUNT IV.—OTHER EXPENDITURE, ETC.

Excess of Rs. 9,926 occurred under "A. 1—Works" due to heavy expenditure on repairs necessitated by floods

## ACCOUNT VI.—ADMINISTRATION OF JUSTICE.

A.—Law Officers.—The excess of Rs. 10,257 against the original provision of Rs. 39,000 was due to increase in the number of Civil and Criminal cases (Rs. 7,000) and enhanced rates of mileage and daily allowance in Abbottabad Tahsil (Rs. 3,000).

C. 1.—*Non-voted*.—Excess of Rs. 21,072 against the appropriation of Rs. 22,600 was due to the posting of non-voted officers in place of voted incumbents.

C. 1.—*Voted*.—Saving of Rs. 24,698 occurred against allotment of Rs. 1,78,700 due to reason given against C. 1.—*Non-voted*.

## ACCOUNT VII.—JAILS AND CONVICT SETTLEMENTS.

*Voted*.—An increase of Rs. 26,016, occurred under "A. 4.—Dietary Charges" due to increase in the jail population. A saving of Rs. 13,879 under A. 7 was due to fewer prisoners having been transferred to jails of other Provinces.

## ACCOUNT XI.—FRONTIER WATCH AND WARD.

A. 1 (11) The actual expenditure amounted to Rs. 59,182 against the appropriation of Rs. 78,058 resulting in a saving of Rs. 18,876 which was chiefly due to curtailment of expenditure owing to a very peaceful year on the Frontier Constabulary Borders.

## ACCOUNT XII.—EDUCATION.

Subhead B.—The saving of Rs. 24,963 against the grant of Rs. 2,29,000 was due to the grant to the Vecac Blarti College, Dehra Ismail Khan, not having been paid.

## ACCOUNT XIII.—MEDICAL.

B. 6.—The excess of Rs. 91,999 against the Allotment of Rs. 1,56,770 was due to special grants-in-aid having been sanctioned to the Provincial Hospital, Meerapur (Rs. 81,000).

## ACCOUNT XV.—AGRICULTURE, ETC.

I. 2.—The saving of Rs. 11,171 against grant of Rs. 31,523 was due mainly to late entertain-ment of staff.

I. 3.—The saving of Rs. 4,862 against grant of Rs. 20,231 was due to postponement of less urgent expenditure in view of financial stringency.

## ACCOUNT XVI.—MISCELLANEOUS.

Sub-head B.—The excess of Rs. 16,239 against the allotment of Rs. 53,500 was mainly due to double payment to the District Board Hazara, recovered in 1930-31. (Rs. 11,700).

| Due to Rs. 14,282 having been drawn for expenditure on compensation for Forest Conservancy of Buner Border to avoid a lapse of the budget grant. This was not spent but was retained in Revenue Deposit till January 1931, when it was refunded at the instance of the Pay and Accounts Officer. The reappropriation proved excessive. |                         |                        |                       |                                                        |                                  |

| The pay of an Assistant Surgeon was wrongly provided under B. 2. The reappropriation was made on 28th March to provide funds for "overseas pay of officers" whereas it had already been provided for in the original budget. The Controlling Officer explains that the reappropriation was made under misapprehension. |                      |                     |                    |                                               |                               |

Due to (i) contingent charges of the Minto Hospital Malakand having been drawn by the Civil Surgeon from the treasury instead of from the Local Fund (Rs. 1,370) and (ii) the balance is mainly due to the purchase of gauze and bandage cloth by the Civil Surgeon, Kurram for the increased number of indoor Surgical patients. ## IMPORTANT COMMENTS.

*Postponement of inevitable payment.*

The explanation under sub-head D.-5 in Account VI seems to indicate that the liability had been incurred before funds were available and had not then been met owing to lack of funds. This is irregular. The liability should not have been incurred in the first instance except for very strong reasons, but once it was incurred the rules clearly state that lack of provision is no excuse for postponing payment of an inevitable nature.

*Misappropriation of Government Money.*

2. In a Settlement Office a Nazir, who was entrusted with the duty of disbursing money to the staff, embezzled Government money to the extent of about Rs 9,000. This amount was made up mainly of undisbursed pay, taccavi advances and contingent money. The office cash chest used to be kept in the Treasury, but the key of the chest always remained with the Nazir.

The Nazir had furnished a security of Rs. 500 only, and the misappropriation was facilitated by the non-observance of the prescribed rules which require that (i) contingent money should not be drawn unless required for immediate payment, (ii) departmental receipts should be immediately credited into the Treasury and (iii) undisbursed pay should not remain in hand after a certain definite period.

A sum of Rs. 250 has been recovered from one surety and the Nazir has been sentenced to five years' rigorous imprisonment. Suitable orders have been issued by Government to prevent a recurrence of such cases. (R. & S.)\*

*Formation of the Pay and Accounts and Audit Offices.*

3. One of the important events of the year under report has been the establishment of two new offices—A Pay and Accounts Office and a Statutory Audit Office—to take over from the Accountant-General, Punjab, the accounts and audit work of the North West Frontier Province. This event owes its origin to the recommendation made by the Public Accounts Committee in their report on the accounts of 1923-24.\*

## IMPORTANT VARIATIONS UNDER INDIVIDUAL ACCOUNTS.

## ACCOUNT I.—DIRECT DEMANDS ON THE REVENUE.

Subhead B. 2.—The excess of Rs. 3,338 over the original grant of Rs. 10,600 is due to certain charges connected with the Patwari School wrongly budgeted for under Account XI—Education (Subhead F. 2.) having been booked under this subhead.

## ACCOUNT II.—OTHER DIRECT DEMANDS ON THE REVENUE.

Subhead A. 4.—The saving of Rs. 5,337 against the grant of Rs. 18,800 is due to over-estimation.

## ACCOUNT VII.—POLICE.

Subhead A. 5 voted.—The actual expenditure amounted to Rs. 58,417 against the grant of Rs. 42,000. The excess is chiefly due to disturbed conditions on the border (Rs. 9,200).

Sub-head A. 11 voted.—The actual expenditure amounted to Rs. 38,000 against the original grant of Rs. 53,500. The provision under this sub-head is intended for transfer to certain police clothing funds, the cost of the clothing being debited to these funds. As one of these funds had already accumulated a balance sufficient to meet all the connected clothing charges for the year, no transfer to it was necessary and the sub-head was accordingly not debited to that extent.

## ACCOUNT IX.—POLITICAL.

Subhead A. 5.—The saving of Rs. 19,681 in the appropriation of Rs. 1,76,200 is explained as due to economy.

Subhead D.—The excess of Rs. 22,076 against the original appropriation of Rs. 20,800 was due to unforeseen expenditure in connection with Refugees.

## ACCOUNT X.—FRONTIER WATCH AND WARD.

Subhead A. 8.—The short recovery of Rs. 6,567 against the anticipated recovery of Rs. 22,700 is due to abolition of certain Postal Lines and consequent less recovery from the Postal Department.

Subhead C. 5.—The saving of Rs. 7,707 against appropriation of Rs. 20,000 is partly due to over-budgeting.

## ACCOUNT XI.—EDUCATION.

Subhead C.—The excess of Rs. 11,090 over the provision of Rs. 57,300 was caused by payment of special grants-in-aid to certain schools.

## ACCOUNT XIII.—AGRICULTURE, SCIENTIFIC DEPARTMENTS, ETC.

Subhead B.—The expenditure of Rs. 33,406 recorded under the subhead is in connection with the visitation of locusts. It was met partly by a supplementary grant of Rs. 28,000 obtained from the Legislative Assembly and partly by reappropriation from savings elsewhere within the Grant.

Subhead H.3 (3).—The excess of Rs. 3,374 over the original grant of Rs. 3,500 was partly due to under-estimation (Rs. 2,000) and partly to expenditure on stores indented for in 1928-29 but actually received in 1929-30.

| The provision under this subhead is intended for transfer to the police clothing funds, the cost of the clothing being debited to the funds. As the fund had accumulated a balance sufficient to meet all the connected clothing charges for the year, no transfer to it was necessary and the sub-head was accordingly not debited to that extent. ## IMPORTANT COMMENTS.

*General.*

The voted saving during 1929-30 represents 1.08 per cent. of the final Grant against 1.86 per cent. in the previous year. The non-voted saving during the year under report represents 1.23 per cent. of the final appropriation against an excess of 0.34 per cent. in the preceding year. These results indicate improvement in budgeting and control.

**2. Sub-head A.-11 (voted), Account VII.—**

Expenditure on Police clothing in the Baluchistan Administration is not debited direct to the grant. The procedure is that a certain scale of expenditure, based on the sanctioned strength of the force, is authorised for the provision of police clothing and provision is made in accordance with this scale. The provision is, as a rule, transferred to a personal ledger account the balance of which does not lapse from year to year. The Superintendent of Police concerned draws on this personal ledger account whenever he has to pay for any police clothing. A similar procedure is in force under the Delhi Administration but not in Central India, where cost of clothing is debited direct to the Police grant. The general question of the suitability of the system in force in Baluchistan and Delhi is under consideration.

*Misappropriation of Government Money.*

**3.** A clerk in an office misappropriated Government money aggregating Rs. 1,195 obtained by the encashment of certain cash orders and a cheque during the months of March and April, 1929. The amount misappropriated was fully repaid by the clerk who was tried by a court of law, convicted and sentenced to nominal imprisonment (until the rising of the court) and a fine. As regards the departmental action taken, the clerk was allowed to retire from Government service on an invalid pension.

The defalcation was rendered possible mainly owing to the lack of supervision on the part of the Head of the office, who, it was contended, was overworked at the time owing to the Afghan disturbances. He was, however, warned by the local Administration.

*Fruit Farm Experimental Station, Quetta.*

**4.** A *pro forma* Account for the year 1929-30 has been appended to the Appropriation Account for this Grant with the necessary certificate.

The Account has not been cast in a strictly commercial form as the question of the treatment of the Farm as a commercial concern has, it is understood, not yet been decided by the Government of India.

The Account shows a loss of Rs. 6,955 as compared with a Loss of Rs. 8,453 in 1928-29. The local Administration has promised to submit a report to the Government of India on the working of the Farm.

## Important variations under Individual Accounts.

## ACCOUNT I.—DIRECT DEMANDS ON THE REVENUE.

Subhead A. 1 (2).—The excess of Rs. 4,538 was due to institution of suits against lease holders of Nazul Lands.

## ACCOUNT III.—ADMINISTRATION OF JUSTICE.

Subhead E.—The saving of Rs. 9,872 against the grant of Rs. 46,000 was due to less payments on account of diet and road money to witnesses than anticipated.

## ACCOUNT IV.—JAILS, ETC.

Subhead A. 4.—The excess of Rs. 9,273 was due to the increased expenditure under Miscellaneous Services and Supplies. It is stated that as certain liabilities were not intimated, the excess remained uncovered.

## ACCOUNT V.—POLICE.

Subhead A. 4.—Voted.—The excess of Rs. 9,157 was mainly due to purchase of Motor cars (Rs. 2,700), and police and military arrangements on the occasion of Bakr-Id. (Rs. 6,400).

## Important variations under Individual Accounts—concl'd.

## ACCOUNT VI.—EDUCATION.

Subheads B. 1 and B. 2.—The appropriations of Rs. 9,500 and Rs. 1,200 under the subhead respectively remained unutilised as the Government High School, Delhi, was not raised to the standard of an Intermediate College.

Subhead F. 1.—The excess of Rs. 47,799 over the original grant of Rs. 1,40,000 was mainly due to the payment of some grants-in-aid (Rs. 45,100) having been correctly adjusted under this head instead of under Subhead F. 2, where the provision was originally made.

Subhead F. 2.—The large saving of Rs. 92,709 against the grant of Rs. 1,07,700 was mainly due to (i) a wrong provision of Rs. 45,100 under this subhead instead of under subhead F. 1 and (ii) to the reason that a school could not apply for building grant, for which a provision of Rs. 50,000 was made, probably owing to paucity of funds at its disposal.

## ACCOUNT VII.—MEDICAL.

Subhead C.—The excess of Rs. 26,804 over the original grant of Rs. 3,35,500 was mainly due to the payment to the Lady Hardinge Medical College, of Rs. 44,000 on account of erection of a new building for the X-Ray and Electro-Therapeutic Department instead of Rs. 21,000 provided for the purchase of a radium.

## ACCOUNT VIII.—PUBLIC HEALTH.

Subhead B. 1.—Voted.—The saving of Rs. 12,206 against the grant of Rs. 73,000 was due to the payment of less grants-in-aid than originally estimated.

## ACCOUNT IX.—OTHER EXPENDITURE HEADS.

Subhead H. 2.—The saving of Rs. 13,494 against the grant of Rs. 75,200 was due to less expenditure on copying agency etc. (Rs. 9,989), and on rents, rates and taxes. (Rs. 5,505).

| Due to payment to Bombay Government of maintenance charges of a lunatic. The Local Administration states that the remaining excess was anticipated and the Bombay officer concerned was requested to furnish bill for acceptance by February 1930. The latter officer, however, failed to do so and as the debit was received after the close of the year it was not possible to provide funds by reappropriation. |                         |                        |                      |                                                           |                                         |        |

## NOTE.

Account V.—Subhead B 4.—The savings in the two previous years over the original appropriation were :—

| Year.             | Grant.<br>Rs. | Saving.<br>Rs. |
|-------------------|---------------|----------------|
| 1927-28 . . . . . | 33,350        | 3,160          |
| 1928-29 . . . . . | 36,600        | 13,463         |

In the latter case the explanation was given that no grain was purchased from January to March 1929 as the market rate was high.

## IMPORTANT COMMENTS.

On page 522 of the Report for 1927-28 it was mentioned how certain action of the local Administration amounted to practically divesting itself of responsibility in regard to control over expenditure and a suggestion was made for the creation of a local Pay and Accounts Office which was supported by the Auditor General. On page 496 of the previous Report the temporary arrangements made by the local Administration were mentioned and it was explained how the procedure of settlement of discrepancies by personal discussion was improving matters.

The control over expenditure during the period under report has shown some further improvement.

*General.*—The original estimate for voted expenditure under the Grant as a whole was only 1.19 per cent. in excess of requirements against 4.65 per cent. in the previous year, and indicates better estimating. Excluding the saving on account of non-utilisation of the provision for leave salary the saving is only 0.9 per cent. In the non-voted section the results are not so satisfactory as the saving compared with the final appropriation was about 3.6 per cent. against about 0.6 per cent. of last year.

## IMPORTANT VARIATIONS UNDER INDIVIDUAL ACCOUNTS.

## ACCOUNT I.—CONVICT SETTLEMENT CHARGES.

Sub-head A. 5.—The saving of Rs. 13,182 against the original provision of Rs. 20,000 is due to the importation of fewer convict families.

Sub-head C. 4.—Due to under-estimation; the actual expenditure amounted to Rs. 11,562 against the original grant of Rs. 6,000.

Sub-head C. 5.—The saving of Rs. 14,226 in the provision of Rs. 37,000 is due to vacancies<sup>a</sup> and to reduction in the price of rations.

Sub-head D. 4 (1).—The actual expenditure amounted to Rs. 2,82,264 against the original grant of Rs. 2,18,900 owing mainly to the purchase of a tug and water boat (Rs. 58,500) sanctioned during the year with the approval of the Standing Finance Committee.

Sub-head E. 4 (1).—The saving of Rs. 7,684 in the provision of Rs. 10,000 is due to increased<sup>d</sup> recoveries from the Military, etc. Departments.

Sub-head E. 4 (3).—The saving of Rs. 32,716 in the provision of Rs. 41,000 is mainly due to less Cattle being imported (Rs. 17,000), overbudgeting (Rs. 5,000) and to recoveries for supplies to the Military Department, etc., being more than expected (Rs. 10,000).

Sub-head E. 4 (4).—The actual expenditure amounted to Rs. 1,24,125 against the original grant of Rs. 2,00,000. Out of the total saving of Rs. 75,875 a sum of Rs. 40,000 has been explained as due to overestimation and Rs. 35,000 to larger recoveries than anticipated.

Sub-head G. 6.—The saving of Rs. 41,355 in the provision of Rs. 1,70,500 is mainly due<sup>e</sup> to change in the classification of the cost of free passes introduced during the year at the suggestion of Audit.

Sub-head H. 2.—The saving of Rs. 36,464<sup>f</sup> in the provision of Rs. 90,000 is due to over<sup>g</sup> estimation (Rs. 30,000) and to the fluctuation in the price of coal (Rs. 6,000).

Sub-head H. 5.—The saving of Rs. 25,340 in the provision of Rs. 46,700 has been explained as due to overestimation (Rs. 15,000) and to the fluctuating nature of expenditure (Rs. 10,000) which is dependent on the number of voyages and the period of stay in Indian Ports.

ACCOUNT I—CONVICT SETTLEMENT CHARGES—*concl'd.*

Sub-head K. 1.—The saving of Rs. 33,105 in the provision of Rs. 80,000 is due to over-estimation (Rs. 20,000) and to the fluctuation in the price of coal (Rs. 13,000).

Sub-head K. 3.—The saving of Rs. 22,150 against the provision of Rs. 60,000 is due to overestimation (Rs. 20,000) and to the fluctuating nature of the expenditure (Rs. 2,150).

Sub-head K. 5.—The actual recoveries amounted to Rs. 1,99,368 against the provision of Rs. 1,50,000 owing to increased receipts due to development in trade.

## ACCOUNT II.—FORESTS.

Sub-head A. 3 (1).—Saving of Rs. 26,777 against the appropriation of Rs. 30,000 is due to the Government of India having included the provision though not asked for by the local Administration.

Sub-head A. 3 (2).—The saving of Rs. 35,273 in the provision of Rs. 80,000 has been explained as follows :

In order to cope with the increased demand for match logs more contractors were introduced in the middle Andamans where the extraction by such agency increased from 323 tons in 1928-29 to 6,922 tons in 1929-30. Elephants lent to contractors were maintained by them with the result that there was a corresponding decrease in departmental payments under this Sub-head. A sum of Rs. 21,500 was re-appropriated to Sub-head A. 1 to meet increased payment for such outturn.

Sub-head A. 6.—The saving of Rs. 11,640 in the provision of Rs. 20,200 is due to the increased purchase of stores on a "C. I. F." basis, which resulted in a reduction of freight charges debitable to this head.

| Due mainly to classification of the cost of free passages by sea as travelling allowances (See Subheads C. 3, G. 2 etc.). The change in classification was introduced during the course of the year at the suggestion of the Audit Office. | A larger number of self-supporters' tickets was granted and more convicts in connection with the dredger works were imported than anticipated. The expenditure includes a misclassification of Rs. 5,626 in the Audit Office as certain recoveries should have been taken in reduction of charge and not as receipts.                               |                         |                        |                      |                                                        |                                    |

The expenditure represents adjustment of a belated debit for freight of elephants purchased in the previous year. In view of the recommendations for the introduction of skidders, no provision was asked for by the Administration under this Sub-head; but the provision was included by the Government of India.

| The increased purchase of stores on a C. I. F. (cost, insurance and freight) basis resulted in a reduction of freight charges debit ble to this head. In view of this, the budget under this head for 1931-32 has been reduced. |                         |                        |                     |                                                        |                                  |

## NOTE.

Sub-head AI. (Account II).—Charges for freight by the Andamans Chartered Steamers were formerly paid and adjusted in a subsequent month when bills were received. The new procedure laid down by the Chief Commissioner is for such charges to be accounted for in the financial year in which the service is rendered, as freight is normally payable at the time of booking. Freight bills for March 1930 received after 1st April 1930 were adjusted accordingly in the accounts for March 1930 Final when it was too late to provide funds by re-appropriation. The excess is, however, covered by savings under other sub-heads of the same grant, re-appropriation within which would have been within the powers of the Chief Commissioner.

## IMPORTANT COMMENTS.

*General.*

The saving in the voted section of the Grant compares with that in the previous year as follows :—

|                                                           | 1929-30.  |                   |                             | 1928-29.   |                   |                             |

|                                                           | Rs.       | Rs.               |                             | Rs.        | Rs.               |                             |
| Account I.—Convict set-<br>tlement charges .              | 28,03,700 | 27,84,719         | 6                           | 26,03,900  | 22,36,764         | 14.1                        |
| Account II.—Forests .                                     | 17,00,900 | 16,42,352         | 3.4                         | 16,79,800  | 12,93,516         | 23                          |
| Total of the grant,<br>including other ex-<br>penditure . | 45,15,000 | 44,37,398         | 1.7                         | 42,92,000  | 35,39,876         | 17.5                        |

The above indicates decided improvement in budgeting on the whole. In the previous year considerable savings accrued even after the lump cuts of one lakh and three lakhs in Accounts I and II respectively. In the year under report the net Grant in Account I only includes a lump cut of three lakhs.

2. In the non-voted section also there is an improvement, the saving during 1929-30 being only 3.7 per cent. of the final appropriation as against 6.6 per cent. in the previous year.

*Control over expenditure.*

3. The local Administration has pointed out several discrepancies in the figures for actual expenditure under certain subheads. As the accounts of the year are closed, it is unnecessary to pursue the differences between the local figures and those in the official accounts. The new system of control over expenditure laid down in Finance Department Resolution No. F.-13-Ex./25, dated the 2nd August 1926 is not applicable in the case of this Grant. The large variations under certain sub-heads, viz., A.5, C.4, E.4(1), E.4(3), E.4(4), H.2, H.4, H.5, K.1, K.3 and K.4 in Account I, indicate the necessity of more careful estimating and control over expenditure on the part of the local Administration and the Commissariat Officer. It is admitted that there are special difficulties which the local Administration has to face especially in regard to the great distance from headquarters and the irregularity of the mail service. The creation of a local Pay and Accounts Office has already been recommended, but the consideration of the question has been postponed to September 1931.

## IMPORTANT VARIATIONS UNDER INDIVIDUAL ACCOUNTS.

## ACCOUNT I.—POLICE.

Sub-head C. 1 Non-voted.—The excess of Rs. 3,348 over the final appropriation of Rs. 12,200 was due to payment of leave salary of an officer.

Sub-head C. 9. —The excess of Rs. 5,271 over the appropriation of Rs. 34,800 was mainly caused by adjustment of book debit charges in March 1930, raised by the B., B. and C. I. Railway on account of rent of Railway quarters for the half year ending 31st March 1930. See also Important Comments.

## ACCOUNT II.—POLITICAL.

Sub-head A. 3.—Increased expenditure on “cost of passages” contributed to the excess of Rs. 4,230 over the final appropriation of Rs. 62,500.

Sub-head B. 1(4).—The excess of Rs. 6,694 over the appropriation of Rs. 10,000 was due to larger expenditure on ordnance stores. The debits from the Military Department exceeded the estimate and no funds could be arranged owing to late receipt of information.

## ACCOUNT III.—OTHER EXPENDITURE HEADS.

Sub-head F. 2.—The excess of Rs. 7,649 over the original appropriation of Rs. 33,000 was due to the payment of a new building grant sanctioned during the year.

## IMPORTANT COMMENTS.

*Control of expenditure.*

1. *Account I.*—Police.—Sub-heads C.-5 (voted), C.-6, C.-7 and C.-9 and *Account II.*—Political.—Sub-head B. 1(4).—The explanations furnished by the local Administration in regard to the final excesses under these sub-heads, which were left uncovered, indicate the need for a more careful watch over liabilities. Similar defects were noticed in the previous year.

2. *Account II.*—Political.—Sub-head A. 4.—The uncovered excess was mainly caused by the adjustment of Rs. 3,473 representing annual rent (*i.e.*, interest and maintenance charges) of the shed and siding for the Royal saloons in the Carriage and wagon shops at Ajmer for 1929-30. No provision was made either in the original or supplementary estimates. The bill was sent to the local Administration for countersignature in April 1930 who suggested the adjustment of the charge in the accounts for 1930-31 as it was then too late to provide funds. The charge is a recurring one and the absence of provision is not a sufficient reason for postponing the adjustment to the accounts of the next year.

*General remarks.*

3. The original estimate for non-voted expenditure was only about 2 per cent. in excess of requirements. The offer of the surrender of Rs. 19,570, which was accepted by the Finance Department on the 22nd March 1930, resulted in an excess of Rs. 4,016 over the total appropriation.

The voted excess of Rs. 1,199 represents about 0.2 per cent. of the original grant. This small excess is also mainly due to failure to provide for accruing liabilities.

## IMPORTANT VARIATIONS UNDER INDIVIDUAL ACCOUNTS.

## ACCOUNT I.—DIRECT DEMANDS ON THE REVENUE.

The extension of the post of Excise Commissioner and his staff for two years from November 1929 has led to the various excesses, including the excess of Rs. 11,108 against the original provision under B. 1 (1)—non-voted.

## ACCOUNT III.—POLITICAL.

Sub-head A. 7.—The excess of Rs. 2,377 over the original appropriation of Rs. 1,900 was due to payment of more contributions for cost of passages. Excess to the extent of Rs. 1,767 was covered by re-appropriation and the balance of the excess remained uncovered as the connected debits were not expected to be raised in the accounts for 1929-30.

## ACCOUNT IV.—OTHER EXPENDITURE HEADS.

Sub-head B. 1 (1).—The excess of Rs. 3,510 over the original appropriation of Rs. 19,900 was mainly caused by leave arrangements (Rs. 2,980) and revision of pay of an officer (Rs. 580).

| Due to the adjustment of leave salary of judicial officer, Neemuch, not anticipated when the original estimates were framed (Rs. 2,980) and revision of pay of the Judicial Officer, Mhow (Rs. 580). The final saving of Rs. 2,090 was due to non-receipt of debits for leave salary of the Judicial officer, Neemuch for the latter part of the year. |                              |                             |                       |                                                                         |                                         |

## IMPORTANT COMMENTS.

*General.*—The original estimate for non-voted expenditure was just over 1 per cent. in excess of requirements. The original appropriation was, however, increased by Rs. 6,044 as a result of modifications sanctioned by the Government of India, Finance Department, in February 1930 at the instance of the local Administration. This unnecessary additional appropriation had the effect of enhancing the saving to about 1.9 per cent.

The saving in the voted section was 2.7 per cent. against 3.3 per cent. in the previous year.

## IMPORTANT VARIATIONS UNDER INDIVIDUAL ACCOUNTS.

## ACCOUNT I.—POLITICAL.

Subhead A 3.—The saving of Rs. 9,998 in the actual expenditure against the final appropriation of Rs. 35,100 is mainly the result of the non-utilisation of the provision of (i) Rs. 8,200 under “cost of passages” and (ii) Rs. 1,000 under “medical treatment of British officers”—See also Important Comments.

## ACCOUNT II.—OTHER EXPENDITURE HEADS.

Subhead F. 1. (5).—The saving of Rs. 4,238 against final appropriation of Rs. 5,600 was due mainly to the provision of Rs. 3,400 on account of cost of passages not having been surrendered to Government.—See Important Comments.

| An acting Chaplain on an allowance of Rs. 125 per mensem was posted in place of the permanent whole time incumbent. Some funds were retained to meet the possibility of a wholetime Chaplain being appointed later, but the final anticipated savings were offered for surrender in February 1930; this, however, was not accepted. ## IMPORTANT COMMENTS.

*Control over expenditure.*

1. *Account II.*—The voted excess of Rs. 3,246 under subhead E, 1-(3) indicates the need for a more effective anticipation of accruing liabilities in connection with railway warrants.

2. *Account II.*—(i) Subhead F. 1(5).—It is not clear why the local Administration did not propose the surrender of Rs. 3,400 which had been provided in the budget for cost of passages, seeing that the connected payment on this account was actually made late in March 1929.

(ii) Sub-head J.—Miscellaneous-voted.—The reappropriation of Rs. 2,480 to this sub-head was unnecessary but was made because the local Administration was not then aware that the supplementary grant of Rs. 2,500 previously applied for had been voted.

3. *Account I.*—Subheads A. 3 and A. 4; and *Account II.*—Subhead F. 1(4).—The offer of surrender was made by the local Administration on the 26th February 1930. This letter was addressed to Government through the audit office and was passed on by the latter on the 11th March, 1930.

As the head of the Department is responsible for the control over expenditure and should know his requirements better than the Audit Office, it is for consideration whether such applications should not, to save time, be addressed direct to the Government.

*General.*

4. The original estimate for voted expenditure was only about 1 per cent short of requirements. With the Supplementary Grant of Rs. 3,000 the final savings came to only about 0·2 per cent. of the grant, a result which appears indicative of accurate control. Rs. 2,500 of the supplementary grant was, however, towards a sub-head to which appropriation of a similar amount was independently made [See paragraph 2 (ii) above], while no adequate reappropriation appears to have been proposed to sub-head E. 1(3) voted of Account II against which the final excess was Rs. 3,246.

The non-voted savings, however, represent about 7 per cent. of the final appropriation—a result which is worse than from the two previous years. Difficulties connected with estimate of requirements for cost of passages appear to have contributed to this result.

| The reappropriation from this subhead was made during March 1930, at which time a saving of about Rs. 10,617 was anticipated. At a later date the Secretary of State sanctioned the writing off against Indian Revenues, as irrecoverable of the amount of loan (Rs. 26,667) made in 1923 to assist in the production of the film-lecture "Romantic India". The resulting excess is more than counterbalanced by savings under other subheads. |                              |                             |                     |                                                             |                                       |

## NOTE.

The expenditure recorded against certain heads of account in this Grant includes charges for furlough pay. These charges cannot usually be forecasted when the budget is framed, as in most cases information regarding officers who may take leave is not then available in England.

| About Rs. 4,600 of the excess due to the acting arrangements in connection with the employment of a Non-voted officer on special duty in respect of India House, and Rs. 5,360 to the employment of three additional temporary clerks. The balance of the excess, not covered, mainly due to the fact that March instalments of salary drawn in that month exceeded expectations. |                         |                        |                       |                                                        |                                         |

Saving mainly due to delay in building. Final saving consists of carry forward to 1930-31 due to further unexpected delay in building, prolonged negotiations with the neighbouring owner over the allocation of cost of construction of the court yard, and inability to discharge the legal costs owing to delay in completion of the lease of the property. These delays, which could not be anticipated, were beyond the control of the High Commissioner.

Excess attributable to an all-round increase in inspection work, the more important factors contributing thereto being (i) expenditure on account of the Burma Railways; (ii) a general increase in inspection work on contracts placed in India; and (iii) a larger volume of preliminary work not directly attributable to contracts placed by the India Store Department.

Gross saving of Rs. 34,827 in the group of miscellaneous charges connected with the supply of stores to India, due mainly to less expenditure on Packing materials (about Rs. 24,000), and decrease in General Average contributions (about Rs. 11,807), reduced by an excess of Rs. 1,653 in the group of contingent office expenses of the Store Department. Excess over the modified appropriation is attributable to a substantial increase in travelling expenses of the Inspecting Staff of the Department during the latter half of the year not having been fully allowed for.

Grant included provision of Rs. 7,000 for salary of Mineral Adviser, payments to whom were, however, charged to subhead F. 2. The saving on this account was partly off-set by additional expenditure in respect of the setting arrangements connected with the Trade Commissioner's post and the Timber Adviser's leave and by the additional cost of the newly created Higher Executive post in the Department.

Allowance paid to Mineral Adviser, originally provided for under subhead F. 1 Voted (q. V.), and subsequently covered by Supplementary grant of Rs. 4,000 under this head, because reclassifiable as "Voted" during the year. This accounted for Rs. 2,347 of the saving; remainder was in the provision for travelling allowances.

| The expenditure was foreseen when revised estimate was framed. In view of the persistent overbudgeting under the Grant it was decided by the Finance Department not to obtain any additional grant from the Legislative Assembly.                                                                                                                                                                                                                                                                                                                                                                                                                                           |                         |                        |                       |                                                        |                                         |

| No provision was made in the original budget for additional chaplains employed in the Lahore Diocese as it was not known whether their services would be available during the year. Excess over the modified appropriation is due to transfer of Junior officers and their replacement by senior ones. ## IMPORTANT COMMENTS.

*Faulty administration of Grant.*

The final excesses under the following Sub-heads indicate defective control of expenditure apparently resulting from imperfect knowledge of the liabilities which would eventually be brought to account before the close of the year :—

*General.*

The total saving under the Appropriation in 1929-30 represents 1·9 per cent. of the final appropriation, against 1·6 per cent. in the previous year.

(a) Sanctioned as follows :—11th March —Rs. 18,420 ; 22nd March —Rs. 1,580.

(b) Sanctioned on 11th March.

*Sanction to reappropriation.*

2. Certain modifications (a few instances of which are given below) were actually sanctioned by the Commerce Department under their own powers and were communicated by that Department to the subordinate controlling authorities :—

These orders were, however, communicated to Audit through the Government of India, Finance Department and thus came to be treated by some Accounts officers as supplementary appropriations, although they were really reappropriations sanctioned by the Executive within the year.

Under the existing practice the dates on which the modifications are actually sanctioned or communicated to Audit by the Government of India, Finance Department are to be treated as the dates of sanction to the supplementary appropriations mentioned in the foot-notes in the Appropriation Accounts. The orders of the Finance Department in the cases mentioned above were communicated after the close of the year, although they were actually sanctioned by the competent authority before the close of the financial year.

To secure uniformity in the way in which these reappropriations are exhibited in the Appropriation Accounts it appears desirable to discontinue, if possible, the present practice whereby the Finance Department communicates to audit the sanctions accorded by the Commerce Department under their own powers.

The principal savings were in Bombay (Rs. 4,859) and in the Punjab (Rs. 19,671).

The saving in Bombay was mainly due to vacancies and that in the Punjab was partly due to vacancies and partly to (i) erroneous provision under this subhead instead of under Subhead C. 1. (Rs. 4,752) and (ii) smaller expenditure on account of decrease in the number of probationers sent for training and deputation of some for a shorter period than originally provided for (Rs. 4,920).

Due to savings mainly in Bombay (Rs. 10,295) on account of smaller expenditure on travelling allowance and passages, and in the Punjab (Rs. 15,120) due chiefly to provision for the office allowance in Kashgar Agency having wrongly been made under this sub-head instead of under sub-head C.-7.

The principal excess occurred in the Punjab (Rs. 16,756) due to (i) wrong provision for office allowance under Sub-head C. 3. Also certain articles of furniture were purchased for the Honourable the Agent to the Governor-General, Punjab States. The above two factors contributed to an excess to the extent of Rs. 10,333 remaining uncovered in the Punjab Circle. See Notes.

Important excesses occurred in the Bushire Residency (Rs. 7,200) and in the Ahwaz Consulate (Rs. 2,400) which were due mainly to under estimation and also to a debit for cost of passages of an officer and his family, which was not provided in the Bushire estimates.

Important saving occurred in India (Rs. 44,433) in Madras (Rs. 14,990) and in Burma (Rs. 8,400).

The saving in India was due mainly to the Political Resident in Bushire not having toured to the extent anticipated.

Taking into account the excesses under L. 4 (1) and L. 4 (2) in Madras the net saving for the three sub-heads as a whole works up to Rs. 4,583 which was partly due to postponement of the survey of the Tinnevely Travancore boundary and partly to partial utilisation of the provision for customs duty on stores.

The saving in Burma was mainly due to non-utilisation of the provision for the demarcation of the Burma China boundary (Rs. 8,000).

Total payments in each of the last three years have been below Rs. 6,80,000. Abnormally high expenditure in the second half of the year is mainly responsible for the excess.

*A. 2.—Stores :*

Supplementary appropriation was for the cost of a second motor-car for the Resident in Mysore, against which expenditure of Rs. 7,600 was incurred. Saving of Rs. 11,467 in the original appropriation which represented contingent provision for possible demands was due to non-receipt of indents.

*A. 3.—Other Charges :*

The excess is the net result of (i) saving in the High Commissioner's account (Rs. 26,346) and (ii) excess in the account of the Secretary of State (Rs. 1,27,573). The saving in the former case was due to the fact that the effect of the introduction of the new major head "Frontier Watch and Ward" in 1927-28 does not appear to have been fully allowed for in framing the Budget under this head. Moreover payments on account of Sterling Overseas Pay were influenced by the heavy increase in Leave Salary expenditure.

A charge for the civil share of the Aden contribution for the three years ended 1929-30, caused an excess of Rs. 1,20,000 in the latter case.

## NOTES.

*Account I.—Sub-head B. 5.*—The provision of Rs. 13,000 on account of furniture in the Indian Budget was hardly necessary when it was intended to purchase in England and so the amount should have been surrendered to Government.

*Account I.—Sub-head C. 7.*—The saving of Rs. 1,008, against the original appropriation of Rs. 21,810 in Burma, was converted into an excess of Rs. 1,042 by the reduction sanctioned in March 1930.

*Account II.—Sub-head K.*—The expenditure under this subhead includes Rs. 35,829 on account of the construction of a new court and offices for the Resident, Mysore, and excludes Rs. 18,100 and Rs. 6,300 debited to Mysore Assigned Tract and Coorg respectively as their share of cost. Revised estimate, Rs. 77,666, expenditure to end of March 1930, Rs. 60,229, balance Rs. 17,427; the work is in progress.

(a) Sanctioned on 15th February, Rs. 5,000; 29th March, Rs. 12,000.

(b) Sanctioned on 29th January, Rs. 9,800; 13th March; —Rs. 2,000.

(c) Sanctioned on 15th February.

## NOTES.

1. *Account II—Subhead D.*—The expenditure of Rs. 1,13,999 includes payments to the Bangalore Civil and Military Station Municipality of (i) a grant of Rs. 34,570 (Rs. 21,370 recurring and Rs. 13,200 non-recurring) in connection with the five year programme (commencing with 1927-28) for the expansion of elementary education and (ii) a grant of Rs. 14,823 for the maintenance of Girls' Schools and medical inspection of school children. The refund of the unspent balance of Rs. 4,295 reported to be with the Municipality on 31st March 1930 out of the non-recurring grant of Rs. 13,200 referred to above, will, it is reported, be considered after the close of the year 1931-32 when the five year programme will be completed. The unspent balances under the other grants referred to above amounting to Rs. 10,319 will be refunded by deduction from grants for the current year, i.e., 1930-31.

2. *Account II—Subhead E. 2.*—The expenditure includes Rs. 238 for stipends in a Government Training College, shown under this sub-head for want of a proper sub-head under 'A-University'. The actual expenditure was met out of the appropriation under E. 2. The Pay and Accounts Officer has reported that the sanction of the Finance Department, will be obtained for opening a suitable subhead and necessary appropriation under the proposed subhead will be made to cover the charges incurred from 1930-31.

3. *Account II—Subhead F.*—The expenditure under this sub head includes a recurring grant of Rs. 4,640, paid to the Bangalore Civil and Military Station Municipality for the maintenance of a gardening school. An unspent balance on 31st March 1930 of Rs. 842 will be refunded by deduction from the grant for the year 1930-31.

4. *Account III—Subhead G.*—The expenditure of Rs. one lakh represents payments to the Bangalore Civil and Military Station Municipality of the recurring annual grant of Rs. 50,000 for certain public health activities and of a grant of Rs. 50,000 for the introduction of underground sewage. The Municipality is allowed to carry forward unexpended balances of the former grant to meet additional expenditure if any, in future years and the unexpended balance of this grant on 31st March 1930 was Rs. 11,516. There was also an unexpended balance of Rs. 19,491 out of the grant for the Sewage Scheme, the works relating to which, are in progress.

A further sum of Rs. 2,912 was also reported as unspent balance on 31st March 1930 of a grant paid previously for a scheme for housing the poor to be adjusted after settling the claims of a contractor.

5. *Losses to Revenue, etc.*—During the year under report 17 cases of writes off of losses aggregating Rs. 581 were communicated to the Audit Officer. The scrutiny of these cases did not reveal any defect in system.

The figure of Rs. 1,93,554 represents the recoveries on account of the Agency establishment, excluding pension contribution, from several local funds in the Western India States Agency. The excess of Rs. 37,517 was mainly due to the fact that a sum of Rs. 31,315 on account of recoveries for previous years made in 1929-30 was credited to the receipt side.

The stock was verified by the Secretary to the Hon'ble the Agent to the Governor-General, Western India States Agency and the Political Agent, Banas Kantha. The price charged for supplies by the Government of India was Rs. 23-5-0 per seer from 1st April 1929 to 30th November 1929 and Rs. 22-7-0 per seer from 1st December 1929 to 31st March 1930. The selling prices adopted by the Hon'ble the Agent to the Governor-General were :—

- (1) Rs. 33-8-4 per seer from 1st April 1929 to 30th June 1929,
- (2) Rs. 30-3-0 per seer from 1st July 1929 to 30th November 1929, and
- (3) Rs. 29-5-0 per seer from 1st December 1929 to 31st March 1930.
- (4) Rs. 22-14-9 per seer for Banaskantha.

The value of the closing balance may therefore be put at Rs. 1.71 lakhs.

(a) The total sale in 1928-29 amounted to 343 mds. 8 srs.

Certified that the total receipts and issues of opium in the Western India States Agency during 1929-30 have been verified with the Accounts received in this office.

## IMPORTANT COMMENTS.

*Control over Expenditure.*

There have been excesses under the sub-heads A.-7 and G.-2. As regards A.-7 it may be noted that excess also occurred in the previous year and a similar explanation was given. It is not clear why the excess under sub-head G.-2 could not have been foreseen some time ahead. In both cases the excesses would have been smaller but for the fact that the original appropriations were reduced on the 28th January and 29th March.

Similarly under sub-head B.-2, which accommodates recoveries on account of establishment, there have been persistent excesses in past years, and it is not clear that the results of past years had been considered when the estimates were framed.

2. There have been savings of Rs. 21,000 and upwards under sub-heads B.-1 (2)—(Police Force), which, in each year, have been explained as due to vacancies for want of suitable recruits (this was pointed out by the Auditor General in his comments on the Appropriation Report for 1928-29); similarly under sub-head B.-1 (4) the savings have in each year been stated to be due to vacancies or want of suitable remounts. It seems desirable that the estimates of each sub-head should take cognisance of such savings, which past experience shows are almost inevitable.

*Store Account.*

A new store account for opium has, for the first time, been included. There are no orders for the inclusion of this store account, it is for consideration whether it should continue to be included in future.

| Savings occurred mainly in the Andaman Forests (about Rs. 8,000) due to curtailment of operations, and in the estimate of the Forest Research Institute (about Rs. 4,000) due to non-utilisation of the full provision for the construction of Chakrata quarters the acquisition of the site for which was delayed.                                                                                                                                                                                                                       |                              |                             |                       |                                                             |                                         |

| Savings occurred mainly in the Andaman Forests (about Rs. 36,900), and in the estimate of the Forest Research Institute (about Rs. 11,300). In the former case the saving was set apart against the cut of Rs. 50,000 for probable saving under subhead F. In the latter case the purchase of certain machines was postponed and less expenditure was incurred on fittings. A sum of Rs. 1,547 was offered for surrender from the Forest Research Institute Budget but the proposal reached the Finance Department too late for sanction. |                              |                             |                       |                                                             |                                         |

\* The net amount required being nil, a nominal demand for Rs. 1,000 was submitted for vote to the Legislative Assembly.

### IMPORTANT COMMENTS.

The charges, which are recorded under this Grant in the first instance, are at the end of the year transferred to the major head "8A—Share of Capital charges financed from ordinary revenues". The charges thus transferred appear under the different Grants (Area or Subject) concerned. The *net* grant under the Demand is, therefore, *nil*, a nominal demand for Rs. 1,000 being submitted for the vote of the Legislative Assembly. The saving of Rs. 1,000 against the nominal grant in this year was converted into an excess of Rs. 8,500 by the acceptance of surrenders aggregating Rs. 9,500 by the Finance Department as detailed below :—

| A.—Communications and Buildings . . . . . | 2,000                | 22nd March 1930.                                    |

The surrenders of Rs. 7,500 and Rs. 2,000 under the sub-heads B.-2 and A. respectively without a corresponding reduction of the original provision made under the sub-head "G.—*Deduct*—Share of Capital charges, etc.—G.-1—India" had the effect of converting the saving into an excess in a Grant for which there is only a nominal demand. Strictly speaking, there should be no surrender at all under the capital head, but only a re-appropriation from the *gross* head to the *deduct* sub-head, the surrender being made from the sub-head for "Share of Capital Charges financed from Ordinary Revenues" in the Area or Subject Demands concerned.

## IMPORTANT COMMENTS.

*General.*

The excess in the non-voted section is mainly due to under-estimation, chiefly under sub-head B.-1, in connection with the distribution of non-voted outlay on a *pro-rata* basis.

## NOTES.

1. In June, 1926 the Government of India sanctioned the Establishment of a Press for the Printing of Currency Notes at an estimated cost of Rs. 27.84,000. The total expenditure inclusive of Establishment charges to the end of 1929-30 amounted to Rs. 25,44,430. The work was completed during 1929-30.

2. In September, 1929 the Government of India sanctioned the construction of additional Quarters for the staff at the Currency Note Press at a cost not exceeding Rs. 1,13,000 (Provision for 1929-30 Rs. 87,000). The total expenditure to the end of year 1929-30 was Rs. 22,194. The work is in progress.

A. 1.—Engineering Establishment—Officers . . . . . 1,26,000 1,13,209 —12,791 —13,100 +309

Mainly due to (i) leave salary of a permanent Bengal Nagpur Railway Officer having been debited to that Railway although provision had been made under this head (Rs. 7,992), and (ii) leave out of India (Rs. 4,642).

A. 2.—Engineering Establishments—Subordinates . . . . . 18,000 16,369 —1,631 —1,700 +69

A. 3.—Office Establishments . . . . . 56,000 59,122 +3,122 +3,400 —278

Mainly due to the appointment of a Chief Draftsman.

A. 4.—Other Establishments.

Due to payment made in India to an officer provision for which was made in England. See F. I. Non-voted.

Voted . . . . . 1,06,000 80,998 —25,002 —23,700 —1,302

The saving is the net result of a saving of Rs. 27,031—under Audit Rs. 11,038, Traffic Manager's Office Rs. 15,993 and a net excess of Rs. 2,029—under medical Rs. 451, Administration Rs. 929 and other establishments Rs. 649. The saving under Audit was chiefly due to the abolition of four posts of clerks and also to the leave salary (Rs. 5,000) of the previous Audit Officer having been debited to the E. B. Railway instead of to this head. The saving under Traffic Manager's Office was due to the half pay of Traffic Manager having been debited to Port Funds as decided by the Railway Board and to his sterling overseas pay having been disbursed in England whereas full provision was made in the budget in the Indian grant. The excess under medical was due to the debit for salary of the Chief Medical Officer, a voted officer, not being anticipated. The excess under Administration was due to the allowance paid to the Marine Superintendent for advisory work. The excess under other establishment was due to the transfer of certain work charged establishment to General Charges on the amalgamation of stores.

A. 5.—Provident Fund Contributions . . . . . 15,000 9,637 —5,363 —2,000 —3,363

Chiefly due to bonus for the second half year of 1929-30 having been adjusted in the accounts for 1930-31; also to smaller contributions than were anticipated for the reasons given against the subheads A. 1. and A. 4 Voted.

(a) Sanctioned on 11th March.

## Due to—

- (i) Postponement of construction of Transit sheds owing to the reconsideration of design (Rs. 3,33,539).
- (ii) Bills for Hopper Barges remaining unpaid owing to contractor's delay in submitting the bills (Rs. 1,00,000)
- (iii) Increased stores charged to Reclamation for the reason given against sub-head E (Rs. 58,018).
- (iv) Receipts on capital account (Rs. 32,114).
- (v) Transfer of work charged establishment to General Charges for the reasons given against subhead A-4 (Rs. 649).
- (vi) Curtailment of expenditure in India simultaneously with increased expenditure in England (Rs. 3,98,493).

G.—Interest during Construction . 9,30,000 9,79,205 +49,205 +24,600 +24,605

## Due to :—

- (i) An excess on account of Interest on Capital outlay during construction adjusted at the provisional rate of 5.38 per cent. in the accounts of 1928-29 and at the final rate of 5.63 per cent. in 1929-30 (Rs. 33,636).
  - (ii) Certain receipts on Capital Account correctly adjusted by deduction from expenditure under subhead F. 3 instead of under this subhead where the provision was made (Rs. 32,114).
- and (iii) Savings due to less capital outlay than anticipated and partly to over-estimation (Rs. 16,545).

The result of an audit verification during the year 1928-29 was a shortage of Rs. 199 and an excess of Rs. 66. A sum of Rs. 78 was written off under the Engineer-in Chief's sanction during the year 1928-29 and the balance adjusted in 1929-30. An audit verification of the stock of stores during the year 1929-30 was not done for want of staff.

*Observations.*

The Project Estimate sanctioned by the Secretary of State and communicated by the Railway Board in October 1925 was for Rs. 2,23,00,000. Estimates for additional works since sanctioned by the Railway Board Supplementary to the Project Estimate amount to Rs. 25,13,687, increasing total sanctioned outlay on the scheme to Rs. 2,48,13,687. Expenditure to end of 1929-30 is Rs. 1,90,38,736; balance Rs. 57,74,951; the work is in progress. A revised estimate for Rs. 3,11, 12,422 has since been submitted for sanction.

## IMPORTANT COMMENTS.

*General.*

The saving in the voted section represents 10·7 per cent. of the Grant, against 38·5 per cent. in the previous year. This indicates an improvement in budgeting.

Subhead F. 1. voted—This subhead is subordinate to the main subhead 'Works', while it includes establishment charges which are, however, small.

*Loan of dredger "St. Andrew" from Cochin Harbour.*

2. It was proposed to utilise the dredger "St. Andrew" belonging to the Government of Madras for the Vizagapatam Harbour Construction. The Railway Board approved the plan under certain terms set forth by the Administrative Officer of the Harbour Scheme. The terms included the following important conditions :—

- (1) The Secretary Marine Department, Government of Madras should give necessary instructions to his Harbour Engineer-in-Chief with a view to the vessel being prepared at an early date for use at Vizagapatam.
- (2) The Mechanical Superintendent, Vizagapatam Harbour should be deputed to make an inspection of the vessel before she leaves Cochin.
- (3) The vessel will in the first instance be taken on hire and a payment of Rs. 300 per working day will be due on account of her. Should there be a stoppage of work over a period of a week or more, whether for repairs or on account of stress of weather, the hire payment would not be due, but for shorter period it would.
- (4) Such running repairs as may be necessary to keep the ship working will be executed at Vizagapatam and will be chargeable to Vizagapatam Harbour Construction but it has been agreed that the Madras Government will carry out at Cochin and at their cost all repairs which may have to be done during periodical repairs. It will be necessary for any question which may arise as to the incidence of repair cost, to be settled between the two Engineers-in-Chief.

The Engineer-in-Chief with the sanction of the Railway Board appointed the necessary staff and crew and detailed them to proceed to Cochin to bring the vessel to Vizagapatam. The Mechanical Superintendent of the Vizagapatam Harbour did not make an inspection of the vessel before she left Cochin, but the late Mechanical Superintendent of the Cochin Harbour who was appointed as Chief Engineer to bring the dredger to Vizagapatam did inspect it.

The vessel arrived at Vizagapatam outside the harbour on 22nd February 1929. Immediately after dredging commenced a certain part broke and prevented the possibility of further work until a new one had been fitted. The vessel was, therefore, taken back and handed over at Cochin on 25th March 1929. The services of the staff and crew were terminated.

The expenditure incurred in connection with the voyage of the vessel from and to Cochin together with other incidental charges was as follows :—

|                             | Rs.           |
|-----------------------------|---------------|
| Labour charges . . . . .    | 14,900        |
| Stores . . . . .            | 22,100        |
| Miscellaneous . . . . .     | 1,800         |
| Rations . . . . .           | 800           |
| Insurance Charges . . . . . | 8,700         |
| <b>Total</b>                | <b>48,300</b> |

No payment has yet been made to the Government of Madras. The arbitrator who was appointed in connection with the question of the damage to the dredger has submitted a report which is summarised below :—

The prime cause of the failure is considered to be due to extreme weakness of the frame at the point of fracture induced by corrosion which had reached such an advanced state that the frame was liable to rupture under any working conditions, even of a light nature.

It is not considered that any action on the part of the Dredging Master of the "St. Andrew" can be taken as contributing towards fracture of the frame.

That while it is considered that Vizagapatam Harbour Construction were technically responsible for the vessel leaving Cochin Harbour with the frame in an unsound condition, yet the Cochin Harbour authorities cannot be held blameless in the matter as it was a justifiable assumption on the part of the Vizagapatam Harbour Construction to expect the Cochin Harbour authorities to maintain an average standard of maintenance on the vessel. It is accordingly suggested that the cost of the voyages to and from Vizagapatam be borne equally by the Vizagapatam Harbour Construction and the Cochin Harbour authorities.

The cost of the repairs to the suction frame will naturally be borne by the Cochin Harbour authorities.\*

*Concordance between the Appropriation Account heads and the Finance and Revenue Account heads.*

3. During an informal inspection of the Audit Office, Vizagapatam Harbour Construction, the Director of Railway Audit observed that there was no proper concordance between the accounts heads under which the expenditure was being booked and the budget heads under which funds had been sanctioned. The matter was taken up with the Railway Board and a revised classification bringing the budget heads into closer accord with the accounts heads will come into operation in the budget of 1931-32.\*

*Loss due to acquisition of land in excess of requirements.*

4. An area of about 10,328 acres of land was acquired for the purposes of the project. According to the original plan a large part of this land was designed for the creation of two large tidal scour basins, but it has since been decided that owing to the very small rise of the tide this manner of producing a natural scour in the entrance channel to the harbour will not be practicable and the idea has been dropped. A certain portion of the consequently surplus land has been transferred to the Department of Industries and Labour of the Central Government for air craft purposes and another portion may be sold to the Bengal Nagpur Railway. This will still leave about 9,905 acres, the cost of acquiring which excluding interest and general charges amounts to Rs. 40.30 lakhs. Of this according to the revised lay

out, land corresponding to an expenditure of Rs. 10·23 lakhs only is required for actual construction purposes. The harbour authorities have divided the land including that required for immediate harbour purposes into the following three classes :—

- (a) areas which cannot be alienated on account of their position or because they are required for actual construction purposes (Rs. 20·05 lakhs). Of this land representing Rs. 9·84 lakhs is not required for immediate purposes but for future development only.
- (b) areas which can be alienated subject to anti-malarial restrictions (Rs. 14·57 lakhs).

The harbour authorities claim that this land is practically unsaleable owing to the anti-malarial restrictions,

- (c) areas which can be alienated without conditions (Rs. 5·67 lakhs).

Here, the harbour authorities claim that the land has at present no market value.

The Administration has, therefore, decided to retain possession of all the land and lease what they can to the best advantage possible. The present net revenue is Rs. 18,936 per annum, representing '63 per cent. on the acquisition cost of the surplus land. In the revised estimate Rs. 8·93 lakhs has been provided for interest on the cost of effective land and Rs. 10·32 lakhs as interest on ineffective land expenditure. The total charge to the project, therefore, on account of the surplus land will be about Rs. 31 lakhs.

The change of plan in regard to the tidal scour basin does not account for the whole of the extra charge as the land was acquired very cheaply at Rs. 50 an acre. To a certain extent the excess outlay is due to the inflated awards given by the Land Acquisition Officer. However, for the original acquisition of a considerable portion of the land, particularly that to the south of the creek (at the mouth of which the harbour is being constructed) no explanation has ever been given. It has been suggested that part of it was taken up in order to apply anti-malarial measures and to obviate heavy claims for compensation which might have been brought against the Government. Against this, however, is the fact that the areas to which this argument is applied are not closely contiguous to the harbour, but are the somewhat higher grounds above the swampy area. There is also reason to believe that the acquisition of land for railway purposes was done on an unduly generous scale.

Two alternatives have been placed before the Government of India for dealing with the extra cost mentioned in this paragraph as well as the extra sum involved in the case dealt with in paragraph 8. These are either that the amounts should be written-off or that in this case the surplus land should be shown under a head "surplus land for future development" in the Capital Account and Balance Sheet and that for the purpose of arriving at shipping rates no interest should be charged on the amount.\*

*Abandonment of scheme for construction of a road.*

5. The Vizagapatam Harbour Construction estimate included provision for the construction of a road about 5 miles long to be linked up with a trunk road. The work was begun and sums of Rs. 22,400 representing expenditure on works and Rs. 1,250 road metal stacked at site were spent. A revised lay out of the project was in the meantime approved by the Government of India and in this the road was omitted, partly on the ground that the project would gain very little by its construction and partly because its construction might seriously affect the traffic of a ferry service included in the project. About Rs. 950 worth of the road metal was washed away in floods and the balance could be put to no practical purpose. Consequently the whole expenditure of Rs. 23,650 so far as the Harbour project is concerned has been unprofitable, but has had to be provided for in the revised estimate.

The local Government, when consulted, agreed that they could not count on the provision of the road at the expense of the Harbour scheme. They hope, however, still at some future time, to make the proposed road and to utilise what has been constructed in doing so.\*

*Absence of penalty clauses in contracts and agreements or non-enforcement in full or in part of such clauses even where provided.*

6. In some instances the contracts for the supply of plant and stores, etc., though fixing a date for delivery, did not contain any penalty clause for late delivery. In some cases plant and stores were delivered much later than the dates fixed in the contract and the bills were passed in full without any penalty being imposed for late delivery. The matter was put to the Administration and they were asked why no penalty had been stipulated and enforced. The Administration explained that no penalty clauses or absolute restrictions in this connection had been introduced as such conditions would either have delayed the delivery dates still further, or in some other cases would have resulted in the refusal of some firms to offer a quotation, or in their putting in a higher tender price to include an allowance against such penalty.

Besides these cases, there were other instances where the contracts in addition to stipulating a fixed date for delivery did specify certain penalties for delayed supply. In some of these, deliveries were actually made much later than the stipulated dates, while the penalties recoverable under the terms of the contract were either waived in full or recovered only in part. In one instance Rs. 2,000 otherwise recoverable was foregone in full, and in another against a penalty amount of Rs. 10,600, a sum of Rs. 4,300 only was recovered and the balance waived. On the matter being taken up the Administration explained that in these cases the delays did not affect the works or involve the harbour construction in any further actual loss and for this reason the penalties were waived. In the case of the sum of Rs. 4,300 mentioned above there was an actual loss sustained and the amount was, therefore, recovered.

---

\* Director of Railway Audit.

Admitting that the Administration must have the final decision about the necessity of a penalty clause or its enforcement, the advisability of the inclusion of such a clause in most cases cannot be gainsaid. It seems doubtful too how far the argument can be legitimately used that this has the effect of raising prices.\*

*Over-capitalisation on the Vizagapatam Harbour project.*

7. The project estimate which originally stood at Rs. 248.14 lakhs has been revised to conform to a revised lay out and the total estimated cost is now put at Rs. 311.13 lakhs. This amount is made up of—

|                                | Rs.         |
|--------------------------------|-------------|
| Preliminary Expenses . . . . . | 1.03 lakhs. |
| Land . . . . .                 | 42.46 "     |
| Works . . . . .                | 171.04 "    |
| General Charges . . . . .      | 25.18 "     |
| Interest . . . . .             | 71.42 "     |

The interest charges on this capital outlay for the first five years after the opening of the port will according to the Government of India's proposals to the Secretary of State be charged to the capital account as sufficient revenue to meet these charges cannot be expected within that period. At 5½ per cent. compound interest these interest charges will amount to Rs. 95.5 lakhs which will bring the total capital up to Rs. 406.62 lakhs.

If the several works (excluding land) are divided into two categories for the purpose of calculating contributions to a sinking fund, namely (1) works with a life of 30 years costing Rs. 176.6 lakhs (ii) works with 60 years' life amounting to Rs. 65.8 lakhs, the total annual sinking fund contribution for the first 5 years will amount to Rs. 5.14 lakhs. The gross annual revenue during the first 5 years after the opening of the Port is anticipated to be Rs. 17.94 lakhs, and the total expenditure in connection with the working of the port including the contribution to a sinking fund Rs. 14.85 lakhs. The net revenue of Rs. 3.09 lakhs represents a return of 0.76 per cent. on the capital involved.

Certain works which have been taken in the analysis as having a life of 30 years are considered by the Administration as likely to last 60 years and the Administration's figures for sinking fund purposes of assets with the longer and shorter lives are Rs. 213.91 lakhs and Rs. 28.49 lakhs respectively. On this basis the net annual revenue will be Rs. 5.12 lakhs representing 1.26 per cent on the capital outlay.

The net return in either case is, however, far below the interest charges to be borne by the project. The gross outlay of Rs. 406.62 lakhs includes interest charges amounting to Rs. 166.92 lakhs, and land charges to a total of Rs. 42.46 lakhs (of which about three fourths are ineffective and producing practically no revenue), and the project would seem to commence under the serious handicap on over-capitalisation.

\* Director of Railway Audit.

The remarks of the Administration in this statement of the case are to the following effect :—

The total capital of 406 lakhs five years after opening or of 311 lakhs at date of opening may be divided into four divisions as follows :—

|                                                                        | At opening<br>of port. | 5 years<br>after. |
|------------------------------------------------------------------------|------------------------|-------------------|
| 1. Port Approaches . . . . .                                           | 106                    | 139               |
| 2. Developed land and building . . . . .                               | 34                     | 44                |
| 3. Undeveloped land . . . . .                                          | 56                     | 73                |
| 4. Expenditure on Mineral and General Berths<br>and Railways . . . . . | 115                    | 150               |
|                                                                        | <u>311</u>             | <u>406</u>        |

Of these items (1) and (2) necessarily cover work which provides for a large extension of the port beyond the preliminary phase scheme and a reasonable return on these items cannot be expected unless and until a very considerable enlargement of the harbour takes place. From the nature of things this expenditure is the minimum which could be incurred for the small scheme undertaken in the first instance but this minimum provision made is sufficient to serve a harbour of very greatly larger capacity.

Item (3). Undeveloped land is necessary to allow of free development in the future. Whether the area of land acquired is excessive for this purpose is a matter of opinion and must remain so until developments prove that the harbour authorities were correct or otherwise in their view of the future requirements of the port. It is well known that the development of other ports in India, *e.g.*, Bombay and Karachi has been seriously affected by the impossibility of obtaining land for their necessary extensions at a reasonable rate.

Item (4) General harbour facilities. This is expenditure mainly necessary for the opening stages of the harbour. Some portion of this expenditure, however, cannot be extended to its full use without further expansion of the harbour.

It is not seen how the alleged over-capitalisation of the harbour except to a comparatively small extent in the case of land could have been avoided if the harbour was to be undertaken at all.

It has to be assumed that the harbour will be a success and that great expansion in a reasonable time will take place. The cost of this expansion and the loss in the meantime have to be added to the initial expenditure and the returns anticipated from trade after the expansion has taken place have to be calculated.

There are so many conjectural items entailed in such a comparison that it is hardly practicable at the present time to investigate the matter, but over-capitalisation cannot be assumed if these considerations are neglected. In short, the Administration states that whether there has or has not been over-capitalisation cannot be ascertained till the harbour has expanded as other harbours in the past have expanded and for which expansion prudent

measures have been taken. If in the alternative there has been over-capitalisation then it was inevitable and has been to all intents and purposes on the smallest scale compatible with the construction of a port at all.\*

*Defalcations in the awards for land, etc., involving excess payments.*

8. During the years 1922 to 1924 land was acquired for the construction of the Vizagapatam Harbour. Subsequently it came to the notice of the Madras Government that very serious irregularities had taken place in making the acquisition awards and the payments, and the Deputy Collector in charge was dismissed as a result of the investigations. It was realised that the awards were excessive and had not been made in good faith. No action could, however, be taken and no appeal could be made by the harbour authorities against them.

The excess involved in the cases with which the land acquisition officer was charged was estimated by the Audit Department to be about Rs. 6.48 lakhs. The harbour authorities made an independent scrutiny of individual awards and after giving due allowance for special conditions and circumstances concluded that Rs. 4.92 lakhs was a more reliable and reasonable estimate of the excess payment. This latter figure may be taken to be the minimum loss incurred owing to the irregularities which occurred in the Land Acquisition proceedings. The interest charges on this figure amounted to Rs. 2.46 lakhs up to 31st March 1930 and a sum of Rs. 7.38 lakhs at any rate may be considered as a dead loss to Government.

An important point which arises is whether Government should not have a chance of appealing against an award of their own acquisition officer when bad faith or collusion with the people whose land has been acquired has been proved against him.\*

## IMPORTANT COMMENT.

## • GENERAL.

Estimating and control were rendered difficult by the fact that this new Grant was created for the first time in 1929-30.

## GRANT No. 94.—COMMUTED VALUE OF PENSIONS.

ACCOUNT of the Sum Expended, in the Year ended 31 March 1930, compared with the Sum Granted, to pay Expenses in connection with COMMUTED VALUE OF PENSIONS.

The actual expenditure under the sub-head amounted to Rs. 1,56,516 during 1923-29 and Rs. 1,11,439 during 1927-28. The additional appropriation of Rs. 5,00,000, based on progress of actuals proved, however, a slight under-estimate.

Due to larger payments than originally anticipated. Extra expenditure to the extent of Rs. 3,00,000 was anticipated on progress of actuals ; the actual expenditure ultimately was less.

#### NOTES.

1. The extra expenditure of Rs. 3,02,907 (non-voted) in the Military Department under subhead A 1—Departmental is mainly responsible for the total excess of Rs. 2,81,868 over the final appropriation of Rs. 7,38,000 in the Non-voted section of the Grant.

2. This is the fourth year in which the commutations have been charged to capital. The explanatory notes under the individual subheads indicate how violently the expenditure fluctuates.

(f) Sanctioned on 27th February.

| Represents excess (Rs. 13,090) in the estimate of the Secretary of State counter-balanced by saving (Rs. 8,459) in that of the High Commissioner. In the former case a re-appropriation of Rs. 17,000 was sanctioned towards the close of the year. In the latter case the larger part of the saving was due to the fact that only one officer received overseas pay during the year ; remainder represents provision for leave salaries not utilised. |                         |                        |                       |                                                        |                                    |

## Observations.

(a) The stock-in-hand on the 31st March 1930 was revalued to accord with the market prices except in cases of a few articles not available in the local market. The revised value comes to Rs. 14,39,003 which is less by about Rs. 10,000 than the book value (Rs. 14,49,000). To the book value should be added debits amounting to about Rs. 7,000 which would appear in the next year's account and the sum of about Rs. 9,000 profit outstanding against certain stores. The book value thus exceeds the revised value by about Rs. 26,000 which represents loss. This is in addition to the loss of about Rs. 28,000 already removed from the Stock Account. The total loss during the year comes to about Rs. 54,000 and is due to the following causes :—

|                                                                                                 | Rs.    |
|-------------------------------------------------------------------------------------------------|--------|
| (i) Due to the writing down of the issue rates so as to accord with the market prices . . . . . | 32,000 |
| (ii) Due to the disposal of surplus stores . . . . .                                            | 10,000 |
| (iii) Due to the disposal of unserviceable stores . . . . .                                     | 11,000 |
| (iv) Due to other causes . . . . .                                                              | 1,000  |
| Total . . . . .                                                                                 | 54,000 |

(b) The stores were verified departmentally and the Accounts Officer also exercised an independent test-check. No notable discrepancies were noticed.

(c) The Stock-in-hand is certified to include the following stores :—

E. W. GRINDAL,

*Accounts Officer, Central Accounts Office.*

I have examined the above account and certify as the result of my test audit, that in my opinion the account is correct.

D. N. MUKERJEE,

*Assistant Audit Officer, Delhi Experiments.*

#### IMPORTANT COMMENTS.

##### *Control over Expenditure.*

The voted expenditure amounted to 132.80 lakhs against the grant of 131.58 lakhs resulting in an excess of about .9 per cent. In the previous three years there was a saving of 43 and 40 and 17 per cent. respectively and it will thus appear that there has been a considerable improvement in the matter of control over expenditure during the year.

##### *Irregularity in acceptance of contracts.*

2. It was noticed from the records of the Accounts Officer, Central Public Works Department, that during 1929-30, contracts were given to other than lowest tenderers in some 68 cases, and the aggregate of the contracts so accepted exceeded the lowest tenders by about Rs. 63,000. In most cases the lower tenders were rejected for the reason that the tenderers were not considered suitable or reliable for the kind of work to be executed.

The more important cases in which the lower tenders were rejected for some reasons other than the unsuitability or unreliability of the tenderers are summarised below :—

**Main reasons for rejection of lower tenders.**

- (1) Lowest tender 25 per cent., below estimated rates.

Accepted 0 per cent. . . .

Difference Rs. 4,811.

Work cannot be done at lower rates without sacrificing efficiency and specifications.

- (2) Lowest tender 30½ per cent., below estimated rates.

Accepted tender 17½ per cent. . .

Difference Rs. 3,666.

The rates of the lower tenders are too low to admit of good work.

- (3) Lowest tender 33½ per cent., below the estimated rates.

Accepted tender 10 per cent. . . .

Difference Rs. 3,110.

Ditto.

- (4) Lowest tender 21½ per cent., below estimated rates.

Accepted tender 15 per cent., below estimated rates.

Difference Rs. 2,189.

Good work cannot be done at less than 15 per cent. below estimated rates.

- (5) Lowest tender 19½ per cent., below estimated rates.

Accepted tender 10½ per cent., below estimated rates.

Difference Rs. 2,185.

Without sacrificing good work it is not possible to execute the work at less than 10 per cent. below the estimated rates.

- (6) Lowest tender Rs. 27,633 calculated at rates tendered for different items.

Accepted tender Rs. 28,701 calculated at rates tendered for different items.

Difference Rs. 1,068.

Tender of . . . accepted as he has a lot of labour at his command and he is the best contractor for this kind of work.

In view of the demand for additional allotments [ (i) Rs. 2 lakhs in Madras for Advances to the Cinchona Department, (ii) 1 lakh in the Punjab for the Agricultural Department and (iii) 2 lakhs in Central Provinces for the purchase of food grains ] a re-appropriation of Rs. 1,64,000 was made from "A. 2.—Advances recoverable, Posts and Telegraphs". It, however, transpired that the local estimates were too generous which is responsible for the saving. The saving which is distributed as follows was partly counterbalanced by small excesses in other Provinces—Burma (Rs. 74 thousands), Bihar and Orissa (Rs. 38 thousands), United Provinces (Rs. 102 thousands) and Central Provinces (Rs. 35 thousands).

|-----------------------------------------------------|-----------|----------|-----------|-----------|-----------|

The original estimates were based on booked actuals, which it was learnt later, included book-keeping adjustments. The revised figure was accordingly reduced to Rs. 10,50,000 which also, however, proved rather high. The estimates are generally based on past actuals.

As the actuals of the previous year were about Rs. 19,000 and as it was decided to treat advances covered by "Regimental and other loans" as interest free from 1929-30 (provision in respect of which was Rs. 10,000) the original estimate of Rs. 29,000 was not reduced.

The expenditure represents charges for the payment of advances of pay to the Bombay, Baroda and Central India Railway staff on their transfer to the Railway Clearing Accounts Office, which was not foreseen. The expenditure was, however, met by re-appropriation.

As the price of copper went up during the year (from Rs. 59 estimated to Rs. 75 per cwt.), a re-appropriation of Rs. 1,12,000 was made to cover the anticipated excess expenditure. The actuals were less than the estimates, as the quantity of copper purchased, which depends on the Mints' programme of coinage with reference to requirements, did not come up to expectation.

| The supplementary grant was obtained to make larger advances to the provincial Governments on account of floods, etc. The excess was due mainly to smaller re-payments by one of the provinces towards the close of the year and partly to overdrafts in two provinces which had to be converted into regular advances in the accounts of the year.                                                                                                                                                                                                                            |                              |                             |                       |                                                             |                                         |

| Excess to the extent of Rs. 24,31,817 occurred in the Punjab chiefly in connection with the Sutlej Valley Project; this was partly counterbalanced by savings (Rs. 13,62,000) in the loan granted to the Bharatpur State and States in Bombay. The final excess represents the uncovered excess of Rs. 8,51,817 connected with the Sutlej Valley Project, partly counterbalanced by savings in (i) Assam (Rs. 99,000) owing to the loan granted to the Manipur State not having been drawn, and (ii) Bombay (Rs. 32,000) due to non-drawal of loans to the extent anticipated. |                              |                             |                       |                                                             |                                         |

| The excess over the original grant was mainly due to larger expenditure in the North-West Frontier Province on account of damages caused by floods and partly to the failure of timely rains in Delhi and Baluchistan. A sum of Rs. 4,50,000 was re-appropriated by the Government of India, Finance Department, out of the Reserve provision of 10 lakhs and a Supplementary grant of Rs. 4,50,000 was sanctioned by the Legislature in February 1930 to meet excess expenditure in the North West Frontier Province. This however, proved too high and Rs. 75,000 was surrendered to Government. |                         |                        |                       |                                                     |                                    |

## IMPORTANT COMMENTS.

*House building advances.*

Advances for the construction or purchase of houses are granted to Government servants stationed at places where houses are not easily available or where high rents prevail. An investigation was conducted to ascertain if the purpose for which these advances are given is frustrated by Government servants either by permanently letting the houses or by mortgaging them or by otherwise disposing of them except in order to purchase another house or on their transfer from the station. Confidential enquiries made in respect of 176 Government servants who repaid their advances during 1926-27 and 1927-28 disclosed that one Government servant sold his house in 1924 while he fully repaid his advance only in 1927, that 3 others had let their houses presumably to make a profit, that 11 others had mortgaged their houses, one while the first mortgage to Government stood, that two others did not build a house but refunded the advance, one of them in instalments spread over a year, and that one clerk who took an advance and built a house jointly with a private individual subsequently sold his share at a profit after some litigation with his partner regarding the house. The results of the investigation were reported to the Local Government which made a rule that no house built with a Government advance could be transferred except on the official's transfer or removal from the station without Government's

previous sanction. In cases of such transfer they ruled that Government may order the recovery of the whole outstanding advance with interest.\*

*Loan to the Bahawalpur Durbar in connection with the expenditure on the Sutlej Valley Project.*

2. The Secretary of State for India has sanctioned the grant of a loan to the Bahawalpur Durbar to enable the Durbar to meet their share of expenditure on the Sutlej Valley Project. In November 1924, it was estimated that the maximum amount of the loan would be Rs. 200 lakhs. This estimate was subsequently revised and the Secretary of State's sanction limiting the aggregate amount of the loan to Rs. 427 lakhs was obtained in September 1926.

(ii) Under the terms of the agreement the capital expenditure incurred on the Project on behalf of the Bahawalpur State is debitable to the loan account, to which can be added the interest charges on the loan if not paid by the Durbar in cash. The Government of India have since decided that the current expenses incurred on the Project (such as working expense of channels, etc.) might be debited to the loan account up to a monthly limit of Rs. 2 lakhs not exceeding in the aggregate the amount of the interest already paid by the Durbar in cash. The privilege was made use of by the Durbar for the period from April 1929 to July 1930 and Rs. 20,14,368 on account of maintenance expenses on the project have been included in the loan account against the interest realized in cash in previous years which amounted to Rs. 49,81,816.

(iii) Further the expenditure incurred by the N. W. Railway for the construction of Railways in connection with the Project is also debited to the loan account. The construction of a Railway from Bahawalnagar to Phulra is included in the Project, and the Government of India have decided that expenditure on the construction of the Fort Abbas Rohatwali Hotwala section of the Fort Abbas Khanpur Railway at the cost of the Bahawalpur Durbar through the Agency of the N. W. Railway may also be included in the loan scheme of the Durbar's share of the Sutlej Valley Project.

(iv) The sanction of the Secretary of State to the grant of the loan was obtained as far back as September 1926 and the limit fixed by him of 427 lakhs, was exceeded by the end of the year following (i.e., 1927-28) when the loan figure amounted to Rs. 484 lakhs. The work is still in progress and the aggregate debit against the loan up to the end of 31st March 1930 amounted to Rs. 810 lakhs. The peak of the debt is estimated at Rs. 10,95 lakhs (nearly 3 times the amount originally sanctioned by the Secretary of State). To this amount should be added the charges on account of the construction on the Railways connected with the scheme. In view of the fact that the limit for the loan fixed by the Secretary of State has been exceeded during the last 3 years and that further payments to the loan are still being made which are likely to amount to 200 per cent. more than the original sanction, it is essential that immediate steps should be taken to obtain formal sanction to regularise the excess.†

*Provincial Loans Fund.*

3. No audit comments could be offered in the last report on the Report of the Government of India on the working of the Provincial Loans Fund during 1928-29 as the Report was not then published.

The Report was subsequently issued and scrutinised. Subject to the remarks, below, the Report has been found to satisfy the rules governing the administration of the Provincial Loans Fund.

Paragraph 9 of the Government of India, Finance Department Resolution No. 1250-F., dated the 25th March 1925 requires that "no advance will be made out of the Fund to any Provincial Governments which do not provide annually out of their ordinary revenue sums sufficient to redeem within a period not exceeding 80 years from the date when they were originally borrowed any loans or advances which they may from time to time obtain or have obtained from any source other than the Fund. This condition, however, does not apply to pre-Reform Irrigation debt".

All the Provincial Accountants General, except the Accountant General, Bombay, certified that these conditions were duly fulfilled in 1928-29. The Accountant General, Bombay, however, intimated that the loan raised in the open market for the Bombay Development Department, according to the terms on which it was raised would begin to be repayable from the year 1935.

Similarly all the Provincial Accountants General, with the exception of the Accountant General, Bombay, who was unable to give the requisite certificate in respect of advances taken for the Lloyd Barrage Scheme (see also paragraph 9 of the Government Report) certified that the Government of India had prescribed the conditions for the repayment of all new advances made from the Fund, and also of all advances outstanding at the time of the institution of the Fund, other than the debt relating to Irrigation Works constructed before the Reforms, the liability for which was transferred to Provincial Governments under the Reforms Scheme and that these conditions were duly fulfilled during the year 1928-29.

(ii) The report of the Government of India on the working of the Provincial Loans Fund during 1929-30 has not yet been issued. Any comments on this report which it is found necessary to make will, therefore, appear in the next report on Appropriation Accounts.
